Summary	Enthusiastic and self-taught Frontend Developer with a passion for creating dynamic and visually appealing web applications. Proficient in Next.js, React.js, and Tailwind CSS, I excel in crafting responsive and user-friendly interfaces. Eager to continue learning and contribute to larger projects, with a goal to build a career as a MERN Stack Developer.
Skills & Abilities	• **Programming Languages:** HTML, CSS, JavaScript, Python. • **Frameworks and Libraries:** Bootstrap, TailwindCSS, React.js, Next.js, Express.js. • Backend Technologies: Node.js, MongoDB, Mongoose. • **Tools:** Git/Github, Headless CMS. • **Soft Skills:** Proficient in communication, content and report writing, and teamwork.
Projects	**Travel & Tour Booking Website – November 2023** • Developed a Tour Booking website based on a Figma design, ensuring full functionality. • Implemented the frontend using React.js with Next.js, enhancing the user experience with the utilization of Tailwind CSS for seamless styling. • Utilized Sanity, a headless CMS, to efficiently manage and control content on the website. • Implemented a booking form with validation using Shadcn, Zod, and react-form technologies to enhance user input accuracy and data integrity. • Integrated Telegram API and BotFather to store and manage all bookings efficiently and effectively. **Organick Store - E-commerce Food Website– October 2023** • Crafted a robust food e-commerce platform, bringing to life a Figma design with a focus on functionality and user experience. • Employed React.js with Next.js and leveraged Tailwind CSS to create a responsive and visually appealing frontend for the website. • Implemented Sanity, to effectively store and manage content, providing a seamless content control system for the food e-commerce site. **Furniro - Furniture E-commerce Website –October 2023** • Created a stylish e-commerce platform for Furniro, showcasing exquisite furniture pieces. • Used React.js with Next.js and Tailwind CSS for a responsive and visually appealing frontend. • Implemented Sanity for efficient content management.
Education	**Sudan University of Science and Technology – November 2016 – March 2023** Bachelor of Science in Civil Engineering
Certification	• **Front End Development Libraries** FreeCodeCamp - April 2023 • **Responsive Web Design** FreeCodeCamp – August 2022 • **JavaScript Algorithms and Data Structures** FreeCodeCamp – November 2022 • **Back End Development and APIs** FreeCodeCamp – December 2022
